ABOUT ME

I'm a 4th-year Software Engineering student at Nişantaşı University with a strong foundation in web development and growing expertise in mobile app development. I have hands-on experience with React, Next.js, and the MERN stack, as well as working knowledge of Flutter and Flutter Flow. My projects include **Laptopia**, a full-stack e-commerce application with robust user authentication and dynamic product management; **MJX Store**, a digital marketplace showcasing interactive UI features for games, gift cards, and subscriptions; and a **Flutter To-Do App** that highlights efficient state management and an intuitive user interface. Passionate about building user-friendly, scalable applications, I thrive in dynamic environments where I can contribute innovative solutions while continuously learning.

DIGITAL SKILLS

Programming Languages

Java: Good knowledge / Python: Basic knowledge

Frontend Development

HTML, CSS, JavaScript / React, Next.js, Tailwind CSS,MUI / Version Control: Git & GitHub

Backend Development

MERN Stack (MongoDB, ExpressJS, ReactJS, NodeJS)

Mobile Development

Flutter & Flutter Flow: Good knowledge

Data Structures & Algorithms

Competent problem analysis and problem solving using Java-based implementations

COMMUNICATION AND INTERPERSONAL SKILLS

Soft Skills
- **Effective Communication:** Demonstrated through both academic projects and professional sales roles, ensuring clear, concise, and persuasive exchanges with teammates and customers
- **Team Collaboration:** Experienced in working within diverse teams, contributing actively to group projects and coordinating efforts to achieve common goals.
- **Problem Solving:** Adept at analyzing challenges and crafting innovative solutions, as shown in the development of scalable web and mobile applications.
- **Adaptability:** Quick to learn and integrate new technologies, thriving in dynamic environments—from academic settings to fast-paced retail experiences.
- **Time Management:** Proven ability to balance multiple priorities, meeting project deadlines while managing work and academic commitments.
- **Customer Focus:** Leveraged retail experience to understand client needs, delivering exceptional service and ensuring satisfaction.

PROJECTS

Laptopia – Full-Stack MERN E-Commerce Web Application
Laptopia is a full-stack e-commerce web application built on the MERN stack. I developed it using React with Material UI for a responsive, modern UI, and Node.js/Express with MongoDB on the backend. The project features robust user authentication (JWT, bcrypt), dynamic product management, a fully functional shopping cart, secure checkout, and order history—demonstrating my ability to design and implement scalable, end-to-end web solutions.

Link: https://youtu.be/tSwDvwmv5j4

MJX Store - Digital Marketplace
Developed a dynamic digital marketplace for games, gift cards, and subscriptions using HTML5, CSS3, and JavaScript. Implemented interactive features including dynamic hover effects, multi-step checkout, and responsive navigation.

Link: https://omer-mevlutoglu.github.io/Template-3-Updated-js/

Flutter To-Do App
Developed a cross-platform mobile application using Flutter and Dart for managing daily tasks.
Implemented features such as adding, toggling, and deleting tasks with a dynamic counter to display completed versus total tasks.
Demonstrated proficiency in Flutter widget composition, state management using setState, and responsive UI design.
The project showcases foundational mobile development skills and an intuitive user interface for task management.

Next.js Ecommerce Project
Developed a fully responsive ecommerce web application using Next.js and React. The project features a modern, mobile-friendly user interface with comprehensive product listings, detailed product pages, and a streamlined shopping cart experience. User authentication (Sign In and Register) was implemented to manage customer accounts. Emphasis was placed on performance optimization, modular design, and scalability through server-side rendering and reusable UI components.

WORK EXPERIENCE

sales personal
Osmanlı Oud Kozmetik, Istanbul [22/06/2022 – 01/11/2022]

City: istanbul | **Country:** Türkiye

Worked 8 hours a day as a salesperson.
Assisted customers in selecting suitable fragrances.
Achieved sales targets on a monthly basis.

Sales personal
Osmanlı Oud Kozmetik, Istanbul [01/06/2023 – 01/11/2023]

City: istanbul | **Country:** Türkiye

Worked 8 hours a day as a salesperson.
Assisted customers in selecting suitable fragrances.

Achieved sales targets on a monthly basis.

EDUCATION AND TRAINING

Softeware engineering Student
Okan University [20/06/2021 – 20/06/2023]

City: istanbul | **Country:** Türkiye | **Website:** https://www.okan.edu.tr/

Softeware engineering Student
Nişantaşı university [16/10/2023 – Current]

City: istanbul | **Country:** Türkiye | **Website:** https://www.nisantasi.edu.tr/

CERTIFICATIONS & COURSES

MERN Stack Certification

Udemy, [03-2025]

- Demonstrated proficiency in full-stack web development using MongoDB, Express, React, and Node.js.

Introduction to Web Programming

[Nişantaşı university, 2023]

- Covered foundational topics in HTML, CSS, and JavaScript, establishing a solid base for web development.

Advanced Web Programming

[Nişantaşı university, 2023]

- Completed an intensive curriculum covering advanced web technologies, including hands-on MERN stack (MongoDB, Express, React, Node.js) development, dynamic web design, and modern programming practices.

LANGUAGE SKILLS

Mother tongue(s): Arabic

Other language(s):

English	Turkish
LISTENING B2 **READING** B2 **WRITING** B2	**LISTENING** B2 **READING** B2 **WRITING** B1
